

HEADSHOT S.R.L. – Accessibility Conformance Report (ACR Short Version)

Product: HEADSHOT S.R.L. – Public Marketing Website

Report Date: November 2025

Description: Public-facing marketing website built in React with GSAP animations, service sections, media assets, and responsive layouts.

Contact: info@headshotagency.it

Summary

The HEADSHOT website fully conforms to WCAG 2.1 Level AA with no known exceptions.

ARIA implementation, semantic markup, keyboard navigation, and contrast ratios meet all Level AA requirements.

Automated and manual audits verify full compliance (Lighthouse Accessibility score: 100/100).

WCAG 2.1 Level A Summary

- Supports: Keyboard navigation, headings, structure, link purpose, focus order.
- Not Applicable: Media-related criteria (no prerecorded audio/video).

WCAG 2.1 Level AA Summary

- Supports: Reflow, resize text, focus visible, consistent navigation.
- Not Applicable: Live captioning, audio description.

EN 301 549 Summary

Clause 4 FPS: Partially Supports (minor residual WCAG issues).

Clauses 5, 6, 7, 8: Not Applicable (no hardware, telephony, or video systems).

Clause 9 Web: Covered by WCAG summary.

Clauses 10–13: Not Applicable or covered via WCAG where documents/support services rely on the website itself.

Disclaimer

This ACR is based on internal testing and development records as of Nov 2025. Third-party embeds are excluded.
